

# Noah Herminio Lopez

West Hempstead, NY | [LinkedIn](#) | (516)-939-7144 | NHLopez.Developer@gmail.com

## EDUCATION

### SUNY Stony Brook University

**Stony Brook, NY**

*Bachelor of Science*

*Graduation Date: August 2021*

*Major: Technology Systems Management, Concentration in Computer Science*

*Minor: Engineering and Technology Entrepreneurship*

- National Society of Leadership and Success (NSLS), Dean's List

## PROJECT EXPERIENCE

### *Memories*

- Full-stack web application with soft user authentication and CRUD capabilities.
- React, Redux, Material UI were used to create a clean minimalistic front-end.
- Custom made API with Node and Express were used for the back-end environment and MongoDB Atlas was used as a database.
- Utilized the library Axios between the front-end and backend while also using the Mongoose library to manage the relationship between Express and Atlas
- Applied the uses of JWT and Bcrypt to create and hash tokens or passwords.

### *Gericht*

- Fully responsive restaurant landing page with modern UI/UX design.
- Utilized Figma toward creating its design to transfer over to web with React.

### *TravLX*

- Fully responsive space traveling webpage. Explored the differing ways to use React Router.
- Used Formspree to create a functioning contact form.

### *Defi*

- Fully responsive landing page for decentralized finance. Completed with more modern UI/UX design practices. Discovered different capabilities of CoinGecko's crypto API.

### *New Solar*

- Full redesign of Stony Brook University's student solar pages. Utilized Figma/Figma Teams to collaborate beside other students to offer input on many of SBU's older designs and recommendations and improvement for new ones.

## HARD/SOFT SKILLS

- |  |   |
|--|---|
| • HTML, CSS, JavaScript                              | • WordPress   |
| • Node.js, React.js (Redux), Express.js, EJS, jQuery | • UI/UX Design (Figma)  |
| • Java, Python                                       | • Adobe Photoshop   |
| • Mongoose, MongoDB                                  | • Microsoft (Word, Excel, PowerPoint)   |
| • Version Control (Git)                              | • Project Management  |
